

## DESCRIPTION

- TYPE: Hollywood Mirror
- SHAPE: Rectangle
- Dimmable with a switch on the mirror
- CRI 90+
- IP Rating: 44
- 120V wiring
- Approx. 120,000 Hours Lifetime
- Complete UL and cUL Certification
- Hangs vertically

## AVAILABLE LED COLORS (Kelvin)

**3000K****6000K**

## MODELS AND SPECIFICATIONS

| MODELS           | PRODUCT NUMBERS         | DIMENSIONS        | LUMENS       | WATTS | WEIGHT |
|------------------|-------------------------|-------------------|--------------|-------|--------|
| Princess 24 X 32 | LCMIR-PRINC-2432-30/60K | 24"W x 32"H x 2"D | 2970/3520lm  | 33W   | 37lbs  |
| Princess 48 X 36 | LCMIR-PRINC-4836-30/60K | 48"W x 36"H x 2"D | 6480/7680lm  | 72W   | 52lbs  |
| Princess 60 X 45 | LCMIR-PRINC-6045-30/60K | 60"W x 45"H x 2"D | 8100/9600lm  | 90W   | 85lbs  |
| Princess 85 X 40 | LCMIR-PRINC-8540-30/60K | 85"W x 40"H x 2"D | 8640/10240lm | 96W   | 105lbs |

### COLOR RENDERING INDEX

The color rendering index (CRI) of a light source is a quantitative measure of its ability to reproduce the colors of various objects faithfully in comparison with an ideal or natural light source.

In general terms, CRI is a measure of a light source's ability to show object colors "realistically" or "naturally".

We only use LED CRI 90+.

### COLOR TEMPERATURE

We offer 2 different light colors for our mirrors.

6000K: Pure white color light. It is the most popular color for makeup application and hairstyling.

In addition, the 6000K is 15% brighter than the 3000K light color. 85% of our customers choose the 6000K light color.

3000K: Warm white color light, the light is a little yellow.

## INSTALLATION & AFTER CARE INSTRUCTIONS

### Installation:

- All our LED mirrors have been independently tested for compliance with electrical equipment (safety) regulations.
- All illuminated and backlit mirrors are IP44 rated.
- Illuminated mirrors have been designed and independently tested for compliance to electrical equipment (safety) regulations, and are UL Certified.
- LEDs have a life expectancy of 120,000 hours of continuous use. All LED light fittings are replaceable and are available through our customer service.
- IMPORTANT: Always switch off the electrical supply at the mains during installation and maintenance.
- It is recommended that fuse is withdrawn or circuit breaker switched off before installation begins.
- Fitting in Bathrooms is subject to all regulations. It is not suitable for product installations in Saunas, Steam Rooms, or shower cubicles and it is recommended for permanent installation.

### Care Safety:

- Wear suitable eye wear protection when drilling. Use caution when using power tools near water, beware of hidden cables or pipes.
- Take care if drilling on tiled surfaces in case the drill slips. A piece of masking tape applied to wall before marking out fixing holes will stop drill from moving.

### Cleaning & Maintenance:

- It is recommended that the unit is cleaned with a soft, dry, non-abrasive cloth when turned off.
- Never use cleaning agents or abrasive material on any type of surface finish.
- Do not strike glass components with hard or pointed items.
- Do not place very hot or cold items against or close proximity to glass surfaces.

### 120V DIMMABLE LED DRIVER INCLUDED

- 1-Decide on wall positional placement.
- 2-Prepare & install wall hooks measured to distance between mirror's
- 3-Match & attach 3 electrical wires from mirror to home electrical wires: Live to Live, Ground to Ground, Neutral to Neutral.
- 4-Hang and affix to wall.
