

D Type Mounting

U Type Mounting

H Type Mounting

PRODUCT INTRODUCTION

The Model B High Bay light has been specifically designed to provide the most powerful & reliable high bay lighting for large areas such as hangars, stadiums and other large areas. The design makes it possible to re-use the existing infra-structure as in roof beam, cabling and power supply, so no additional investment is needed.

With superior patented, high-efficiency spill light control system, high light output and low weight, these fixtures are designed to provide an uniform and superior quality anti-glare illumination to large-scale areas.

The modern, yet rugged fixture housing is constructed of high grade aluminum with exceptional heat sink design, insure that these high bay fixtures will last for more than 20 years or 100,000 hours of operation, making them virtually maintenance free for a lifetime.

TECHNICAL DRAWING

PERFORMANCE SUMMARY

Input Voltage	100-277VAC or 277-480VAC, 50/ 60Hz
Nominal Power	40W~960W
Efficiency	Up to 160 LPW
CRI	Ra>70(Default)/ Ra>80/ Ra>90
Power Factor	>0.9 at full load
Total Harmonic Distortion	<20% at full load
Surge Protection Device	Imax 10KA
Optic (IESNA)	Type I, Type V
Operating Temperature	-40°C~+50°C
Accessories & Options	1-10V Dimming, PWM, DALI, DMX, Motion Sensor, Emergency Power Supply, Photocell MINI, Back Light Shield
Color Options	Black, Grey
L70/L90	>200,000H/ >60,000H
Limited Warranty	10 years limited warranty

Not all products are qualified on the DLC QPL. To view our DLC qualified products, please consult the DLC Qualified Products List at www.designlights.org

ORDERING INFORMATION

MODEL	INPUT VOLTAGE	MOUNTING	COMMON OPTIC	CCT	COLOR	OPTIONS
BAC40	L 100-277VAC	D	T1S	19K	BK	DIM
BAC80		U	T5M	1900K	Black-RAL9011	1-10V Dimming
BAC120	H 277-480VAC	H	T5W	22K	GY Gray-RAL7004	PWM
BAC160			T10D	2200K		10V PWM Control
BAC200			T20D	30K		DALI
BAC240			T40D	3000K		DALI Control
BAC320			T60D	40K		DMX
BAD60			T90D	4000K		DMX control
BAD120				50K		MMS
BAD180				5000K		Motion Sensor
BAD240				57K		EPS
BAD300				5700K		Emergency Power Supply
BAD360						PCM
BAD480						Photocell MINI
BBD720						BLS
BBD960						Back Light Shield

With the exception of the DIM, all options require prior confirmation with the engineer.

SPECIFICATION FEATURES

Construction:

Extruded aluminum driver enclosure thermally isolated from Light Squares for optimal thermal performance. Heavy-wall, die cast aluminum end caps enclose housing and extruded aluminum heat sinks. A unique, patent pending interlocking housing and heat sink provides scalability with superior structural rigidity. 3G vibration tested and rated. Optional tool-less hardware available for ease of entry into electrical chamber. IP66 water-proof and dust-proof rated.

Optics:

Patented, high-efficiency spill light control technology. With a wide-range of optic lenses and flux options for the luminaire, it can send light exactly in the right direction and illuminate only the area of interest as efficient as possible. This will let you avoid any light waste and shine light only where is needed. With multiple spill light control options, it diminishes the light that shines towards the sky and windows of houses around the field of play to protect night preservation and biodiversity and minimize light nuisance issues.

Electrical:

LED drivers can be mounted to removable tray assembly, which is separated drivers pack, for ease of maintenance. 100-277VAC 50/60Hz, 277-480VAC 50/60Hz Operation. The Model B is suitable for operation in -40°C to 50°C ambient environment. Available in standard 700mA and 1050mA driver current.

Mounting:

D-type, U-type and H-type bracket mounting allow for mounting flexibility. Each type of mounting method can be shifted by only change the mounting bracket for ease of installation and stock. Extruded aluminum arm includes internal bolt builders allowing for easy positioning of fixture during mounting.

In addition, pole mounting is available for customization.

Finish:

Housing finished in super durable powder coat paint, corrosion resistant polyester powder painted 100µm thickness. Meets 1000-hour salt spray certification per ASTM Standard B117. Standard housing colors of Black and Gray. other housing colors can be customized.

Certification:

- cULus Listed
- CE-LVD / CE-EMC / CB
- DLC Premium qualified versions available
- IP66 /IK10
- RoHS compliant
- Endurance tested to withstand 1,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B117
- 10KA surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Certified to ANSI C136.31-2010, 3G bridge and overpass vibration standards
